DESIGN MEETS QUALITY

THE NEW PREMIUM STANDS BY GRAVITY

Gravity is an award-winning line of stands and accessories for stage and studio use and a brand of the Adam Hall Group. Expert engineers and users have teamed up to create thoroughly professional products with innovative details such as our unique colour coding rings.

Continuous research and development result in an ever-growing selection of high-quality stands and accessories that are built for reliable functionality and longevity. Gravity products are made of superior materials only including thick-walled precision tubing, die-cast zinc and double injection molded thermoplastics.

With their durable heavy-duty construction, quick and easy handling and contemporary looks Gravity stands and accessories are the perfect choice when only pro quality products will do. Committed to superior design, workmanship and functionality, we provide a 5-year warranty on all Gravity products.

Gravity - Stand your ground.

- ✓ 5-year warranty on all Gravity products.
- ✓ Stands and accessories for stage and studio use.
- ✓ Professional functionality with innovative details.
- ✓ Designed and engineered in Germany.
- ✓ Ultra durable construction, built to last.
- ✓ High strength precision tubing and die-cast zinc components.
- ✓ Soft touch rubber-coated clamps and knobs.
- ✓ Double injection molded adjustment knobs.
- ✓ Replaceable rubber marker rings for colour coding and personalizing your stand.

G-RINGS

THE STYLE FACTOR

At Gravity, we believe that stands are more than just accessories. Ultimately, they are part of the show. That's why we build them for heavy duty use and easy, ergonomic handling. But we also opted for a stylish look that sets them apart from dime-a-dozen stands and makes a strong visual statement.

Gravity products feature our unique sheen green "G" rings that are replaceable in seconds. Available in a variety of attractive colours, you can now customize your stands with additional ring packs and match them to your show's visuals, music genre or personal preference.

What's more, the smart "G" ring concept provides convenient colour coding to indicate a stand's intended purpose, placement on stage or the performer to use it. Just pick your colours to add style and distinction to your stands, or choose vanta black "G" rings for a classic, discreet look. Black rings are included with all Gravity products.

AVAILABLE COLOURS:

GRAVITY ORIGINAL REPLACEMENT PARTS

Built for durability and longevity, Gravity products are constructed from premium quality materials, such as heavy duty aluminium and steel, tough die-cast zinc and hardwearing thermoplastics.

In the unlikely event that the strains of stage and studio use take their toll, we offer a comprehensive selection of original replacement parts.

Gravity replacement parts are field serviceable enabling easy repair to extend the life of your Gravity product and provide an eco-friendly alternative to the planned obsolescence of throwaway designs.

SPEAKER STANDS

Gravity speaker stands use thick walled precision tubing, steel height adjustment collars and redesigned leg housings for maximum strength and durability. Air cushion and hand crank versions greatly facilitate lifting and lowering heavy loads, and our low-profile round base model provides an elegant, small footprint alternative to conventional tripods. In addition, the Gravity range includes stands for your studio monitors, subwoofer poles and a selection of stand adapters.

SPEAKER STANDS

KEYBOARD STANDS

Gravity keyboard stands and add-on tiers are designed for safe support and easy portability. Including multi-adjustable T-style and single or double X-braced models, they are made of heavy duty steel with reinforced joints, durable powder coating and grippy pads. Gravity keyboard stands provide easy setup and height adjustment for sitting or standing playing positions.

KEYBOARD STANDS

FEATURES

Black rings and pads included

Vari-Foot®
Compensates for uneven ground

Ergonomic quick release clamp

Reinforced tubes for superior strength and longevity

KSTS 01 B

Keyboard Stand Table

This keyboard stand with table-like construction offers superior stability making it particularly suitable for heavy keyboards. It is height-adjustable in small incremental steps, making the stand suitable for both seated and standing applications. The legs can be fitted in two basic configurations – either perpendicular to the vertical structure or angled outwards slightly – the latter configuration offers additional stability and more leg room. The top rests can be adjusted to the width of the keyboard and can also be angled in small incremental steps over a range of 360 degrees. All in all, this solid steel construction comprises all features possible in such a design without compromise.

For transport, both the legs and the top rest can be folded inwards, resulting in a very compact transport height.

The stand includes one Vari-Foot® leveling foot to compensate for ground irregularities.

Product number	GKSTS01B

Wall Mount Guitar Hanger with Neckhug

This universal wall mount hanger for acoustic, electric and bass guitars features Gravity's smart "Neck-Hug" technology. It automatically secures the neck in the yoke to prevent falling out. The locking wings open again when the instrument is lifted from the hanger. The yoke is coated with specially formulated rubber that does not mar the finish.

Product number	GG01WMB
Product type	Stands and tripods
Type	Guitar stand
Material	Die-cast aluminium / plastic
Colour	Black
Surface	Powder coated
Suitable for	Acoustic guitars, bass, electric guitars
Number of guitars	1
Width	90 mm
Min. height	70 mm
Depth	140 mm
Interchangeable rings	1 x 25 mm

MS CAB CL 01

Cab Clamp Microphone Holder for Guitar Cabinets

This universal clamping system allows you to mic up a guitar cabinet in an easy and revolutionary way. The spring-loaded clamping arm makes the clamp suitable for almost any type of cabinet and securely fastens to the side or top of a cabinet or combo amplifier. Thanks to its adjustable edge grip, the clamp can be adjusted to fit snugly onto recessed edges. The rigid boom is finely adjustable in both boom angle and microphone depth – this ensures a far more precise and secure mic placement as opposed to using a gooseneck-based clamping system or conventional mic stand.

Product number	GMSCABCL01
Product type	Microphone accessories
Type	Microphone holder
Material	Aluminium
Surface	Powder coated
Colour	Black
Clamping width	250 - 400
Extension length	250 mm
Threaded connector	3/8 "
Weight	0.6 kg

WHITE IS THE NEW BLACK!

In response to countless customer requests, Gravity is now offering select stands in white. The matte sheen textured finish is non-soiling and elegantly offset by black thermoplastic parts. These stands are ideal for environments and decors where black or chromium stands are too conspicuous, custom stage setups, houses of worship and highlighting your personal style. Of course, they are the obvious choice for installations that are utilizing white loudspeaker cabinets.
